MM- in the course of filling the backlog (about 50/) I remembered that some time ago, in suggesting to you how you might analyze the then-current situation or one of GL's acts, I suggested that a key was the balance of trade situation. I do not remember if I made a copy or, if I did, how I filed it. So, if it is no big operation for you and if you do have this, I'ds appreciate a copy to see if it has relevance in what I will be writing about Nixon's record as President...A few more of the Mullen & Hunt clips were in this stack. Tells me not to try to heed Mitchell and file these things at the same time, as you tried with Dean.
